

# How to make an Advent Wreath

## Step 1

Make small tubes out of card or using toilet roll tubes covered in tissue paper. For a traditional wreath you will need 5 tubes - 3 purple, 1 pink & 1 white.

## Step 2

Make candle wick shapes out of card and attach them to the tubes.

## Step 3

Make leaf shapes out of card and stick them and some green tissue paper onto a paper plate.

## Step 4

Stick your tubes onto the paper plate.

You can attach them all at the same time, or each Sunday during Advent, with the white one saved for Christmas Day!

If you would like to raise the middle candle up, you can cover a pot with green tissue paper and stick it in the middle of the plate, sticking the white candle on the top.
